DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14 and 20-25, drawn to a composition.

Group II, claim(s) 15-19, drawn to a process of improving absorbability of a slightly soluble drug.

Group III, claim(s) 27-28, drawn to a fine powder of cilostazol with a particle size of 10 micrometers or less for preparing a sustained release preparation.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature in Group I, the composition is not required in Group II, a process of improving absorbability of a slightly soluble drug and the special technical feature of Group II is not required in Group III a fine powder of cilostazol with a particle size of 10 micrometers or less for preparing a sustained release preparation. The special technical feature of Group I is not required for Group III, a fine powder of cilostazol with a particle size of 10 micrometers or less.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1614

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
